Would Consult President Regarding Platt Amendment.

ASK FOR MODIFICATIONS

MISSION, HOWEVER, IS NOT LIKELY TO BE SUCCESSFUL.

New York, April 1 .- A special to the New Tork, April 1.—A special to the Tribune from Washington, says: It is believed in administration circles that within a day or two the Cuban constitutional convention will appoint a special committee to come to Washington for the purpose of consulting the president and cabinet about modifying some of the provisions of the Platt amendof the provisions of the Platt amendment. Though the convention at Haana has been discussing the advisabilthy of this move for about a week, it was not until yesterday that official information on the subject reached

If the visit is made by the Cubans it If the visit is made by the Cubans it will have to be done within the next two weeks. The president and cahinet will leave Washington April 29 for the Pacific coast, and will be away six weeks. It is thought that the Cuban visitors would want at least a week or ten days in which to exchange views with the president and his advisers, so if they desire to take up the subject before the summer is well advanced they will have to come here by the middle of the month.

If the Cubans ask for the elimination from the Platt amendment of the pro-

from the Platt amendment of the pro-visions for naval stations and the right of this country to intervene for the preservation of peace and order, they will be disappointed, because the adpreservation of peace and order, they will be disappointed, because the administration has neither the authority nor the disposition to modify the act of congress defining what ought to be the relations between Cuba and the United States. It is believed, however, that the visit of the Cubans would be productive of much good in an educational way. They could obtain from President McKinley and others competent to speak for the government, assurances of this country's beneficent aims toward Cuba and official guarantee that neither in spirit nor intent does the Platt amendment contain anything that should be construed as a veiled purpose to establish a protectorate over Cuba in the meaning of that word in the international code.

With these assurances and guarantees the Cubans could return home and calm whatever fear may exist among their people on this score, even if they should not be able to put a stop to the political agitation stirred up by the professional politicians who have personal ends to serve.

At the same time it is thought to be possible to subserve the same object through aucther device, which may make unnecessary the visit to Washington by a committee of the constitutional convention. Considerable literature for publication in Cuban newspapers has been sent to the island in the last few days by high officials at Washington. This literature deals frankly with the subject, and interprets scriatim the provisions of the Platt amendment. When this literature has been disseminated in Spanish among all classes of Cubans, it is confidently believed that it will have such a content of the constitutional conventions, it is confidently believed that it will have such a content of the constitutional conventions, it is confidently believed that it will have such a content of the constitution of contents of cubans, it is confidently believed that it will have such a content of the constitution of the constitution of the constitution of the platt amendment.

amendment. When this literature has been disseminated in Spanish among all classes of Cubans, it is confidently believed that it will have such a quieting effect that the convention at Havana can with safety to the political future of its members, ratify the Plat amendment.

Still, no objection is urged in Washington against the proposed.

Still, no objection is urged in Washington against the proposed visit of the Cuban committee, and if the convention decides on this course, as now seems probable, Governor General Word may be instructed to place an army transport at the service of the committee selected, and the visitors will be treated with marked official courtesy when they arrive here.

### WOULD ACCEPT TERMS.

Senator Proctor Finds Cubans Are Well Dispose

Washington, April 1.-Senator Proctor of Vermont, who has just returned from Cuba, says he found a disposition among many leading Cubans to accept the terms of the Platt amendment as the most satisfactory solution of the relations between the United States and Cuba. There is some disposition among the Cubans to place a strained interpetration upon the Platt amendment and they are trying to con-vince the Cubans that the United States intends to do them great in-According to Senator Proctor these

According to Senator Proctor these are not making yery much headway, especially, he says, as the delegates to the convention are now hearing from their constituents, the large proportion of whom are anxious for a settlement of all political relations with the United States and urge the delegates to accept the offers of this government.

Senator Proctor, speaking generally of conditions in Cuba, says that the lasiness situation is much improved. There is employment for nearly everybody and the quiet and peace that has come to the people is appreciated by them.

### HOLD SECRET SESSION.

Members of Cuban Constitutional Convention Discuss Amendment.

Havana, April 1.-A secret session of the Cuban constitutional convention was held today, and attended by twenty-five delegates. Among the ab sentees were Senor Giberga, Senor Qui-las and General Sanguily, strong sup-porters of the Platt amendment. The first matter considered was a resolution from the Planters' associa-

resolution from the Planters' association, recommending the convention to accept the amendment, with a provise that the United States government should make a reduction of 50 per cent on Caban exports, or make a preference in their favor over similar products from other countries. The resolution was tabled without discussion.

The majority report of the committee on foreign relations, signed by Senors Goonez, Silva and Villuendas, was read, but after a discussion which showed that a majority of the delegates were opposed to it, a resolution to lay it on the table was carried. A similar disposition was made of the redports from Senors De Quesda, Tamayao, Nunez and Giberga.

A motion by Senor Monteauguado to appoint a commission to go to Washington was defeated by a vote of 13 to 12. It was finally decided to hold a public session of the convention tomorrow, when an attempt will probably be made to reconsider the action of the

SEE THEIR OLD SHIP. Veterans of the Farragut Fleet Visit

the Bartford.

New York, April 1.-About 200 sailors of Farragut's fleet, with their families, were entertained yesterday at the Brooklyn navy yard. The feature of the day was their visit to the Hartford, Farragut's old flagship. The old ship was gaily decorated for the occasion.

Among the visitors were many who had fought aboard the Hartford in 1862. They found many changes in her. When they looked for her o'd cight-inch muzzle-loaders and her nine-inch smoothbone guns they found her equipped with rapid-fire six-pounders, one-pounders and a Colt automatic gun. The veterans told their sons and daughters of the changes in the ship, sat in their avorite spots on her decks, recalled old stories of the war and re-told the old tale of how she had been struck 240 times during her eighteen months of service.

The visitors were the members of the of Farragut's fleet, with their families,

### REVISION OF CREED.

Dr. Talmage Talks of Possible

Change in Presbyterianism.

Knoxville Tenn., April 1.—The Rev. T. DeWitt Telmage, who is here today, was asked his opinion as to the proposed revision of the Presbyterian creed. He said:

"My own irm belief is that the work will not be done by a committee. When the time is ripe, some one of our great men—a man of heart and brains—will step forward and read the simple article of what we now believe. When it comes, it will fire the hearts of men like a flame and will be adopted instantly. I hardly think hings will be ripe enough for this at the next general assembly. There are a number of our great men who are as fully competent to promulgate a creed as was John Calivin. Any creed that leaves in doubt the solventh of the system of the human race was settled ages ago and no matter or belief or works such as this or that individual can do can change it as regards himself. Such a creed is too deep."

# NO CASE OF YELLOW

Havana, April 1.—For the first time in the history of Havana the month of April begins without a single case of yellow fever in the city. Major Gorgas, chief sanitary officer, is confident that with the sanitary measures now being enforced, and the valuable information gained during the recent investigations of the yellow fever commission, there will be but few cases during the coming season. The marine hospital service is also taking precautions against the bringing of infection into Havana from Mexican or other ports. Dr. Glennon, chief surgeon, has issued orders for a quarantine against these ports beginning April 15.
